

July 21, 2003

Pretreatment Coordinator  
City of Kokomo  
Wastewater Treatment Plant  
1501 West Markland Ave.  
Kokomo, IN 46901

On July 14, 2003, I called Roger Fain at the Treatment Plant and told him that when the June sample was sent in, it was not marked as a semi annual test. It was therefore not tested to TPH, FOG or Phenol.

I called Test America to see if they had enough sample left to do this test but they did not. We have the July test out now and these will be tested and the results will be on the July report.

Sincerely,

Richard Tyler  
Plant Manager  
Milbank Mfg. Co., Inc.
